Mentored Student Self-Evaluation Form

Student's Name_____ Date_____

1. Please indicate how you got the idea for this project.

2. Explain how you took the original ideas and modified or expanded the scope of the project as the work progressed. Cite specific examples.

3. Describe an example of how an insight or idea that you had was beneficial to the overall work of the lab group, if applicable.

4. Aside from the scientific findings of your work, what was the most beneficial personal experience gained from working with your mentor?
